

## InvestHorizon Accelerator welcomes 56 startups in its second instalment!

*The second round of the InvestHorizon Acceleration Programme will accommodate 56 companies within the next 4-6 months.*

Entrepreneurs often underestimate the amount of capital needed and end up raising too little money. They also underestimate the time needed to raise and close the funding. This is where InvestHorizon comes in, an Accelerator focusing on supporting deep tech entrepreneurs and their current (seed) investors to raise ambitious Series A investment.

**In October 56 startups from 19 countries were accepted in the second cohort of the programme.**

### ***What to expect from InvestHorizon?***

InvestHorizon champions 500 selected high-tech entrepreneurs to do much better and to raise an ambitious Series A investment round together with their supporting investors through individual programme customised to the investment-readiness needs and challenges of each company. The companies are selected through application process, accepting new cohort of SMEs every 6 month till the middle of 2021. The next cut-off is scheduled for 31<sup>st</sup> of January and will accept more than 100 companies.

**About InvestHorizon**

InvestHorizon is a programme financed by the European Commission, in association with Eureka, to facilitate Series A funding for selected deep tech companies boosting their investment readiness and investor relations. The programme is run by a consortium coordinated by Tech Tour with 6 other partners: BPI France, Meta Group, EurA, BWCON, EBN, and IESE Business School.
