

[PRESS RELEASE] - InvestHorizon supported 500 start-ups to raise accumulated +250M€ investment

Since beginning of 2019, the InvestHorizon accelerator has supported for free over 500 deeptech companies with various services to improve their investment readiness, i.e., personalised coaching, pitching academies and events, bootcamps, online courses and webinars. The aim was to bring them closer to their goal of raising Series A investment and boost their investor relations.

Today, we can proudly announce that after passing through our accelerator many alumni successfully raised investment, summing up to an overall fundraising of more than 250 million €.

We are looking forward to more success cases for the companies that went through the accelerator in the last semester of the programme.

About InvestHorizon

InvestHorizon is a programme financed by the European Commission, in association with Eureka, to facilitate Series A funding for selected deep tech companies boosting their investment readiness and investor relations. The programme is run by a consortium coordinated by Tech Tour with 6 other partners: BPI France, Meta Group, EurA, BWCON, EBN, and IESE Business School.

The programme will run until 31st December 2021: <http://www.investhorizon.eu>
